

BSB41515 - Certificate IV in Project Management Practice

An introductory online course in project management

Course Overview

The course is aimed at participants with little or no project management knowledge or experience. It concentrates on the ten functions of project management, ie:

- Integration Management (limited coverage)
- Scope Management
- Schedule Management
- Cost Management
- Quality Management
- Human Resources Management
- Communication Management
- Risk Management
- Procurement Management
- Stakeholder management

We cover project management principles, techniques and tools using a step-by-step methodology, with 45 steps, for managing workplace projects. Course material includes definitions, checklists, examples and templates.

Typically participants apply project management tools and techniques to current or planned projects (case study projects may also be used).

The course is based upon:

- BSB41515 - Certificate IV in Project Management Practice
- A Guide to the Project Management Body of Knowledge (PMBOK® Guide) – 6th Edition
- AIPM Professional Competency Standards for Project Management Part B – Certified Practising Project Practitioner (CPPP)

Course duration varies from 50-390 hours depending upon various factors including experience, speed of working & extent of pre-existing evidence.

Assessment and Award Options

The assessment process is summarised as follows:

- Usage of workplace templates/deliverables for evidence of skills. AGS provide templates, examples and checklists for a project from start to finish. AGS templates may be used to supplement gaps in workplace templates or a substitute where none are available
- Completion of an Assessment Record Book (ARB), primarily answering knowledge and understanding questions (no exam!).

For more information see [FAQ's](#).

Course objectives

- Increase knowledge, understanding and workplace competence in project management
- Apply project management functions, tools and techniques to current or future projects
- Provide a practical methodology to initiate, develop, implement and finalise projects which satisfy the requirements of the client and other key stakeholders.

Course Outcomes

On finishing this course, participants should be able to contribute to the definition, planning, implementation, control and successful completion of projects or project manage simple projects from start to finish.

Course Units

1. Project Management Fundamentals
2. Initiation Phase (starting a project)
3. Development Phase (planning the project)
4. Implementation Phase (achieving the plan)
5. Finalisation Phase (completing the project)

See overleaf for more information.

Cost \$2,000

Certification and Qualifications

Upon satisfying BSB41515 criteria candidates are awarded the Certificate IV and Certified Practising Project Practitioner (CPPP) certification on joining AIPM as an Associate or full member. Alan Schwartz delivers the training and undertakes assessments. Qualifications are awarded by Registered Training Organisation Australia Institute of Business and Technology #41138.

Candidates may also complete BSB41515 via Recognition of Prior Learning (RPL) – please contact us for more information.
