

BSB41515 Certificate IV in Project Management Practice

An introductory course in project management

Course Overview

The course is aimed at participants with little or no project management knowledge or experience. It concentrates on the ten functions (PMBOK®) of project management, ie:

- Integration Management (limited coverage)
- Scope Management
- Time Management
- Cost Management
- Quality Management
- Human Resources Management
- Communication Management
- Risk Management
- Procurement Management
- Stakeholder Management

We cover project management principles, techniques and tools using a step-by-step methodology, with 45 steps, for managing workplace projects. Course material includes definitions, checklists, examples and templates.

Typically participants apply project management tools and techniques to current or planned projects. The course is based upon:

- BSB41515 Certificate IV in Project Management Practice
- A Guide to the Project Management Body of Knowledge (PMBOK® Guide) - Fifth Edition
- AIPM Professional Competency Standards for Project Management Part B – Certified Practising Project Practitioner (CPPP)

Assessment and Award Options

The course includes progressive assessment – upon satisfying criteria candidates are awarded BSB41515 Certificate IV in Project Management Practice. On completion of the course delegates are eligible to receive AIPM's RegPM Certification at Certified Practising Project Practitioner (CPPP) level when applying for Associate Membership.

Course objectives

- Increase knowledge, understanding and workplace competence in project management
- Apply project management functions, tools and techniques to current or future projects
- Provide a practical methodology to initiate, develop, implement and finalise projects which satisfy the requirements of the client and other key stakeholders.

Course Outcomes

On finishing this course participants should be able to contribute to the definition, planning, implementation, control and successful completion of projects or project manage simple projects from start to finish.

Course Topics

1. Project Management Fundamentals
2. Initiation Phase (starting a project)
3. Development Phase (planning the project)
4. Implementation Phase (achieving the plan)
5. Finalisation Phase (completing the project)

Course Details

Duration: 4 days

Time: Start - 9.00 am. Finish - 4.00 pm

Venue: To be agreed

Participants receive:

- Course workbook & extensive handouts (electronic)
- Catering to suit Client needs (and budget)

Certification and Qualifications

The Certificate IV in Project Management Practice is delivered via Agreement with Australia Institute of Business and Technology (AIBT) RTO 41138. AGS deliver the training and undertake assessments. Qualifications are awarded by Registered Training Organisations 41138 or 91063 (Motivate Training). Participants may also undertake AIPM RegPM Certification and/or complete BSB41515 via Recognition of Prior Learning (RPL) – please contact AGS Consulting & Training (AGS) for more information.

A laptop speeds up the evidence collection & assessment process plus gives easy access to courseware including templates.
